# MINING, BUSINESS AND STOCKS

# BECK TUNNEL MOVES DOWNWARD

Tintic Stock Softens But Rallies Again Towards the Close of Today's Early Calls.

#### COLORADO REMAINS STEADY.

Mountain Lake and Seven Troughs Lower-Sloux Con. Stronger-Closing Quotations.

There were some weak spots in the mining stock market today and several of the Tintic issues were noticeably affected-particularly Beck Tunnel Consolidated, which sold down to \$2,17 % and then railied to \$2,22 % at the close, Black Jack and Colorado were inclined to stiffen, and that was the case with Star Consolidated, which sold up to 64. Crown Point hung around 98 cents and recorded one sale at \$1. One board lot of Columbus sold under the \$5 mark. Iron Blossom

under the \$5 mark. Iron Blossom held its own, while mountain lake dropped back to 90 cents and Seven Troughs to 76.

Ohio Copper began with a sale at \$6.20 and some profit taking forced the price down to \$6, at which price several lots were offered at the close. Emma Copper brought 17 cents; Copper Glance 15 and 15½. A bid of 40 cents for Naildciver failed to bring out any stock at that price.

The closing quotations and sales were:

#### COLUMBUS CONSOLIADTED.

What Manager Jacobson Says In Report Just Sent Out.

The dividend checks of the Columbus

The dividend checks of the Columbus Consolidated Mining company were placed in the mails yesterday afternoon. In each envelop was enclosed a report from General Manager Tony Jacobson in which he goes into detail concerning the physical cendition of the company's property at Alta-and also gives out the information that after the disbursement of the dividend the treasury will still contain \$90,000. The monthly operating expenses of the company aggregate about \$12,000. In his report Mr. Jacobson says:

"Everything at the mine is moving along nicely. In what we call the Garfield winze, which is now 40wn 200 feet, we have commenced drifting. In drifting to the south on this level we have encountered a large lody of milling ore, and there is no doubt but that as soon as the intersection of the fissure and contact is reached a large body of high-grade ore will be opened up. This is comparatively new work and ought to prove up wonderfully in the next 90 days.

"The No. 3 shaft, which is the main working shaft, has been sunk from the 300 to the 400-foot level since our last dividend, and we are now drifting to catch the ore bodies from this level, which will require about 100 feet of drifting each way from the shaft. This work should be accomplished with the next 30 days and it will give us an additional 100 feet of stoping between the 300 and 400-foot levels. In what is called the No. 5 winze, at a depth of 110 feet, a station was cut, and in drifting back to the vein a body of ore was encountered which runs 10 per cent copper and from 15 to 20 ounces silver. As yet we have not crosscut the ore per and from 15 to 20 ounces silver. As yet we have not crosscut the ore body, and therefore we are unable to tell its width, but from its appearance it should prove to be as large as any ore body we have yet found in the property.

roperty.

"Everything in general in and about the mine and mill never looked better, and from all appearances we will be able to make a much better report at time the next dividend is paid. The transway is handling from 50 to 70 tons of ore per day, and there will be no trouble whatever in shipping all the ore that we will want to in the future."

## PARK CITY MINING ITEMS.

The Copper Apex is the latest of the Park City properties to be added to the ist of shippers.
Nothing is doing as yet at the Nail-driver and company officials are mum is to what their plans and intentions

At the New York Bonanza prepara-

At the New York Bonanza preparation is being made for the resumption of work. The machinery is being given a general overhauling and a spring cleaning made. Steam will be raised and work started in a few days.

Work at the Iowa Copper company's property is again in full swing under the direction of George Hall, and good progress is being made. Shipping ore is being taken out right along and stored for a shipment which will be made in the near future. The roads round about the mine are being repaired and put in shapeto facilitate transportation. It will betwo weeks yet before the snow gets out of the mountains in the vicinity of the Iowa.

Ore Shipments—Silver King, 654,505; Daly West, 900,000; Daly-Judge, 1,051,-000; Little Bell, 280,000; Old Daly, 90,000; Copper Apex, 40,000; Johnson, 44,000, Total pounds, 3,669,505.—Park City Record.

## ENTERS MERCUR CAMP.

Samuel Newhouse at Head of United Mercur Gold Mines Co.

Mercur Gold Mines Co.

The United Mercur Gold Mines company of Cheyenne, Wyo., filed a cepy of its articles of incorporation with the secretary of state today. The company is capitalized at \$1,000,000, divided into shares of the par value of \$1 ench. The directors of the company are Samuel Newhouse, Lafryette Hanchett, C. H. Griffin, E. H. Airis and C. C. Parsons.

The above named corporation is the result of the gathering together of several mines adjoining the Consolidated Mercur Gold Mines company's properties at Mercur and which include the Ingot mine which is known to contain an extension of some of the ore bodies which have been so prolific in the big Consolidated Mercur mine.

The deal has been pending for several months and C. H. Griffin has been instrumental in bringing it to a consummation.

It is proposed to begin a campaign

It is proposed to begin a campaign of development in the near future and the company will probably give employment to a large force of men.

# TALKS ROSEBUD TO SALT LAKERS

What a Well Known Nevada Mining Man Has to Say About Active Nevada Camp.

#### UTAHNS CONSPICUOUS THERE.

New Find in the Brown Palace-High Grade Ore in Dreamland- Other Mining News.

"Rosebud, Nevada's Newest Treasure Vault," is the title that John G. ure Vault," is the title that John G. Guerinfi president of the Rosebud Investment company, who has been in the city for the past week gives Rosebud, Nevada. In speaking of this camp he says, "Salt Lakers know very little about this coming bonanza camp, and yet it is due to the enterprise of its citizens that the camp was discovered and prospected. Conspicuous among the ploneers was W. J. Lawrence who was early, on the ground and secured the Golden Anchor claims, now incorporated as the Rosebud Nevada Mining company, and has the distinction of being known as the gold mine of the district—this title being derived from the fact that while most of the properties there have their highet values in silver, the Golden Anchor values are almost entirely gold. The discovery shaft on this property has been prolific in showing good ore and it is no common occurrence to get returns of \$173, \$260 and \$87 assays from the vein encountered in this work.

"Another Salt Lake enterprise is the Rosebud Rattler which is headed by such well known talent as J. H. McCrystal and Lewis A. Jeffs. This property has one of the largest croppings in the district and it is an easy matter to find \$100 ore.

"The White Alps company is also a Guerinfi president of the Rosebud In-

McCrystal and Lewis A. Jeffs. This property has one of the largest croppings in the district and it is an easy matter to find \$100 ore.

"The White Alps company is also a Salt Lake proposition and is under the control of Judge W. M. Bradley, C. E. Allen, Andy Mayberry, George N. Lawrence and others equally well known to Utah mining fame. This property has shown up well under development and their values run as high as \$700. This company has decided to try the leasing system on part of the ground.

"Since I left home there has been a rumor afloat that the Brown Palace had cut a large and very rich vein in its tunnel. This is a piece of good news that has been momentarily expected, for the surface showings are simply phenominal. This is believed to be the big vein that appears on the top of Brown Palace hill which has a width of over nine feet and returns value of \$1.396 per ton. The interests behind this property have lately acquired two other groups of clalms in the district, the Rabbit's Foot and the Big Six, the latter having surface showings that give 1.800 ounces in silver. The Big Six adjoins the property of the Golden Triangle Mining company which is controlled by Salt Lakers, amongst their number being George W. Morgan, Judge Marioneaux, G. N. Lawrence, W. J. Lawrence and Edw. Copley. Work is being done on this property and returns indicate that the property will come into the shipper class in the near future.

"The Tonopah Mining company of Tonopah, is also heavily interested in the Rosebud camp; the Dreamland property being a high grade proposition with ore that averages over 100 ounces in silver to the ton. This property has a quantity of ore sacked and it is believed that they contemplate an early shipment.

"There are too many good properties in the district to mention them all, but it would be a wise thing if Salt Lakers would keep their eyes on this camp for it is bound to come to

all, but it would be a wise thing if Salt Lakers would keep their eyes on this camp for it is bound to come to the front. Rosebud has attracted a good deal of attention from mining men all over the country, and it is proving in importance every day."

## CLAIMS IN PANAMINT.

CLAIMS IN PANAMINT.

The Salt Lake newspaper syndicate which is backing Clarence E. Eddy, the poet-prospector, says the Rhyolite Herlad, has purchased outright the Fairvlew group of eight claims in the Panamint range, owned by Mrs. Nellie Currie and E. G. Gould, for a stated consideration of \$10,000, part cash in hand paid and part stock. One thousand dollars cash was paid to secure the option in the initial steps of the deal.

This Salt Lake syndicate has already acquired a total of 27 claims in this locality, together with water rights, through the agency of its representative, Mr. Eddy, and it is its purpose to organize a couple of companies and begin development at once.

## BOSTON CON. MILL.

Metallurgist Bettles Says Plant Will Be Ready in September.

A. J. Bettles, chief metallurgist of th Newhouse mines, stated today tha splendid progress is being made with the construction of the Boston Consoli

the construction of the Boston Consolidated Mining company's new concentrating mill at Garfield and that he is confident that he will have at least a portion of the big plant in commission before the end of September.

Like every other mining company that has had new construction in progress, considerable annoyance has been experienced in getting the prompt delivery of freight. However, things are coming along much better now and a big part of the equipment has been assembled.

# IMPORTANT SALE RUMORED.

Rumor has it in Rhyolite that the Clark crowd has bought the "Borax" Smith railroad. The announcement is not being discussed by officials of the Clark road. Such a purchase would shut the Brock road off from the outside world. The Smith and Brock roads had reached an agreement, it is generally understood which would furnish communication with the outside.

# SAN FRANCISCO MARKET.

#### CONCENTRATES. Ore shipments have been started from the South Columbus Consolidated

R. J. Evans, the well known broker nd mining operator, has returned from business trip east. Former Senator Thomas Kearns of the Silver King Coalition company has returned from a business trip east.

Manager Horman Barrnett, of the Cedar and Cedar Extension properties in Beaver county, departed for camp again last night.

The ore and bullion settlements reported late yesterday by McCormick & Company were: Crude ore and concentrates, \$11,000; base bullion, \$67,000.

C. L. and F. E. Smith of Franklyn, Pa., shareholders in the Indian Queen mine in Beaver county, have arrived from the east and will visit that prop-erty as the guest of General Manager L. N. Morrison.

Word comes from American Fork to the effect that a body of ore similar to the one developed in the Wyoming mine in American Fork canyon has been opened in the Whirlwind, a neighboring

W. G. Ingalls, editor of the Engineering & Mining Journal, who is in the city to post up on local mining conditions, visited the Garfield smelters today as the guest of General Manager Charles W. Whitley.

The effort to build a new town at some point near the mouth of Bingham canyon is said to have been revived. To be sure there is not very much room left in the campon for expansion for the present town of Bingham and if the camp continues to grow as it has in the past the need of another townsite will become more apparent.

The management of the Columbus Consolidated will have overcome the trouble with water before the close of trouble with water before the close of the day. When the electric pumps re-fused to work, the lower workings rap-idly filled with water. Fortunately, however, by laying an air pipe line to the Consolidated Flagstaff compressor, power was obtained and thus the dif-ficulty was overcome without serious damage being done.

H. E. McCain of Salt Lake, repre-senting members of the Salt Lake City bar, left last night for Panamint, the bar, left last night for Panamint, the new mining camp, for two months' prospecting. He had four burrows and went alone. He will go by Lee and Furnace creek and will travel by night. Mr. McCain is an experienced prospector and expects to make rich discoveries in the land of "Scotty" and Eddy.—Rhyolite Herald.

The East Crown Point Mining com-

and Eddy.—Rhyonte Heraid.

The East Crown Point Mining company of Sait Lake filed articles of incorporation with the County Clerk, yesterday. It is a a Sait Lake company, and owns claims in the Tintic district. The capital stock is \$100,000, divided into one million shares of the par value of 10 cents each. The officers are; President, J. C. Jensen; vice-president, J. P. Creer; secretary and president, J. P. Creer; secretary and treasurer, Ned McKenzies. The other directors are J. W. Reese and E. O. Leatherwood.

Leatherwood.

There is a rumor in Rhyolite to the effect that the Clark people have bought the "Borax" Smith railroad. None of the officials are here at this time and it is impossible to verify the report. If such a transaction were consummated, it would practically shut out the Brock road from outside connection since it was generally understood, the Brock and Smith roads had affected an agreement by which an outlet for the former to the coast was to be had. Such an arrangement would shut the Brock people off from outside communication. — Rhyolite Herald.

# COPPER STOCKS WERE LOWER

Slump in Prices of Warrants in London Had Decided Effect In New York.

NOT MUCH DOING IN THEM.

larket Opened Lower but Stocks Were Supported at Decline-Prices Hardened and Were Maintained.

New York, July 16 .- Stocks opened lower under the influence of weakness of America in the London market, but declines were not down fully to the London Copper stocks were affected by the slump in the prices of copper warrants in London. Amalgamated Copper tell 1½, Canadian Pacine i and Anaconda ¾. Dealings were small and the movement as languid.

Stocks were supported at the opening declines and prices recovered to above last night. The trading then became extremely dull.

tremely dull.

Prices slowly hardened, centering on Union Pacific buying, which rose 1½. Great Northern preferred gained 1½ and Southern Pacific, Reading and Wabash preferred 1 to 1½. Mackay companies fell 14.

Prices were steady.

Brids were steady.

Prices were maintained. Union Pacific rose 2 in all, but trading decreased to nominal proportions during the noon hour.

Amalgamated Copper reacted P4 on further reduction in quotations for the metal at the metal exchange. The general list moved sluggishly in sympathy.

The market closed strong and quite active. Amalgamated Copper was carried nearly a point lower than last night's closing. U. S. Realty rose 1. The selling pressure was lifted, allowing recoveries. Union Pacific rose 3 over last night, Northern Pacific 2, Southern Pacific 4, Pacific Mail 195. Canadian Pacific P4 and Kansas & Texas 1.

# PEOPLE WONDER AT HIS WORKS

Boy Phenomenal Proves That He Can Perform All He Claims In Public.

### THREE INSTANCES CIVEN.

Cases of Miss Rose Adams, Barney McMinamon and Roscoe Jacobs Offered As Proofs.

Liberal Offer Made to Give Treatment To Afflicted for the Price of Medicines Prescribed.

have, for the past few weeks, been filled with stories concerning the great Fer-Don and the Boy Phenomenal, The efficacy of the remedies presented by the great Fer-Don has been demonstrated, it is said, nightly upon the sick and the afflicted of this city and vicinity. The most remarkable feature of these cases is that the Boy Phenomenal

Columns of local daily newspapers

and also his patients, claim that all and also his patients, claim that all were benefited inside of three minutes. This naturally has caused considerable comment concerning the marvelous healing abilities of the Boy Phenomenal, and many questions have been asked by doubting ones regarding his claims.

Fer-Don, the great, and the Boy Phenomenal, submit the following instances as proofs of the latter's ability to heal and succor the suffering of mankind.

Some time ago, Miss Rose Adams, of

mankind.
Some time ago, Miss Rose Adams, of No. 574 Cully avenue, brought to the offices of the Boy Phenomenal, Windsor hotel, No. 225 Main street, a glassjar in which was an enormous tapeworm, driven from her, she claimed, by the medicines administered by the Boy Phenomenal. STORY OF TAPE WORM.

STORY OF TAPE WORM.

In the presence of a number of people, she explained that for years she bad suffered from stomach troubles, the result, she thought, of poor digestion. An "all-tired" and a worm-out feeling characterized her condition. Miss Adams said she consulted several local doctors, without securing relief.

She then consulted the Boy Phenomenal, who assured her that he could cure her. "The Boy Phenomenal gave me one dose of medicine," she said today, "and then told me to go home and rest. Two hours afterward a monster tapeworm, forty feet in length, passed from me, and immediately afterward, I felt like a different woman. "I can't tell how glad I am that I am cured, and I owe a debt of gratitude to the Boy Phenomenal, FOR HE SAVED MY LIFE."

The great Fer-Don and the Boy Phenomenal cite another proof of the remarkable healing ability of the latter. Mr. Barney McMinamon, of No. 231 south First West street, suffered for a long time from cancer, and after unsuccessfully consulting many physicians, went to the Boy Phenomenal. This is Mr. McMinamon's story. "For a long time I suffered from a cancer under my left eye. C. H. Williams, of Layton, and James Hamblin, of Kanab, Kane county, Utah, I was told, had been greatly beenfited by the Boy Phenomenal.

REMOVAL OF A CANCER. "Without the aid of a knife, and

REMOVAL OF A CANCER "Without the aid of a knife, and absolutely without pain, this wonderful healer removed the cancer from my face. I am more than pleased with the results, and am willing to testify to any one, of the efficacy of the bloodfess, surgical methods of the Boy Phenomenal.

"All that is left of the cancer is a small scar. All I can do, and do gladsmall scar. All I can do, and do gladly, is to recommend the Boy Phenomenal to those suffering from cancer."
Still another willing to testify to the
benefits wrought by the Boy Phenomenal is Roscoe Jacobs, of this city, who
became deaf in the left ear, resulting
from an attack of scarlet fever. The
Boy Phenomenal treated Jacobs, who,
after the first treatment, was made to after the first treatment, was made to

hear a whisper.

The Boy Phenomenal concerning his wonderful success in this and other cities, said: "I treat all kinds of curable, chronic diseases. No incurable cases will be accepted or treated by me under any circumstances. circumstances.
"Catarrh and bronchial troubles.

"Catarrh and bronchial troubles, rheumatism, hacking cough, ins in the chest, ringing and buzzing noises in the ears, liver, kidney and bladder troubles, deformities, diseases of the nerves, gall-stones, cancers and tumors are treated by me."

His peculiar method of bloodless surgery, the Boy Phenomenal asserts, were learned in the greatest educational institutions of the Old World. He claims that he is the only surgeon in America today who operates by the bloodless method.

All who call at the offices of the Boy Phenomenal, Windsor hotel, No. 225

All who call at the offices of the Boy Phenomenal, Windsor hotel, No. 225 Main street, before August 1st, will be treated for a small fee, the cost of the medicine prescribed. All applicants for consultation must hold examination and consultation cards. These are procurable at \$1 each. There are no free examinations. The first cost of medicines will be charged patients undergoing treatment by the Boy Phenomenal Phenomenal
